Taking care of the essentials

# FLAVORS & FRAGRANCES

TAKING CARE OF YOUR
ESSENTIAL OILS AND PERFUMES

# TAKING CARE **OF THE ESSENTIALS**

## AT THE HEART **OF YOUR BUSINESS**

The widest range of one-piece aluminum bottles and stainless steel solutions for raw materials, blends, fragrances, and flavors.

With its range of packaging solutions, Tournaire offers a solution for each specific case: storage and transport of raw materials and ingredients, sampling and transport of fragrance compositions, and presentation for the sale of compositions. Opening diameters are tailored to each type of material, from the most liquid to the most viscous. A range of 100% aluminum cans covers applications for powders and solids. Our stainless steel drums offer large capacities.

**25**
million bottles manufactured annually

**29**
different standard sizes in stock

**+1500**
customers worldwide

Our classic 100% aluminum lines and a new generation of 100% recyclable packaging: OMNI PLUS®.

This new line combines performance with recyclability. More leak-proof, with a level of cleanliness that exceeds even our current standards, and UN-certified: Tournaire is committed to providing packaging solutions that are more environmentally friendly.

# **THE BENEFITS** OF THE RANGE

- **A wide range** of capacities, from 15 g to 800 kg.
- Over **500 products available** at our locations and through our international network.
- **Packaging tailored** to your materials and their viscosity: essential oils, absolutes, concretes, powders (citrus, rose, jasmine, iris butter…), blends, fragrances, and flavors.
- **Integrity:** chemical neutrality, cleanliness, leak-tightness, tamper-evidence, consistent quality.
- **A high-quality brand** image for your products.
- **Easily recyclable** aluminum packaging.

# OUR SOLUTIONS

DESIGNED TO MEET THE NEEDS OF THE GLOBAL FRAGRANCE INDUSTRY

## ALUMINUM

### OMNI PLUS®

LIQUIDS VISCOUS

100% recyclable, tamper-proof, one-piece aluminum UN-approved bottle for sensitive or hazardous liquids.

50 g to 6.25 kg

### SYSTEM PLUS®

LIQUIDS VISCOUS

UN-approved, tamper-proof, one-piece aluminum bottle for sensitive or hazardous liquids.

50 g to 32 kg

### 9M6

LIQUIDS

100% recyclable one-piece aluminum bottle for sampling sensitive liquid products.

15 g to 125 g

### TYPE 4S

LIQUIDS VISCOUS

100% recyclable one-piece aluminum container with a wide opening, designed for liquids and viscous products.

5.5 kg to 30 kg

### CC BOX

SOLIDS VISCOUS

One-piece aluminum box, 100% recyclable, with a full-opening lid, for solid, viscous, or paste-like products.

125 g to 10 kg

SOLIDS VISCOUS

100% recyclable aluminum box with a wide opening, designed for solid, paste-like, powdery, or viscous products.

2 kg to 30 kg

## GLASS

### GLASS

LIQUIDS

UV-protective Type III amber glass bottle, for the storage and sampling of sensitive liquids.

15 g to 600 g

## STAINLESS STEEL

### INOVADRUM TIGHT HEAD

LIQUIDS VISCOUS

Tight head stainless steel drum, UN-approved, reusable, for the transport and storage of liquid and viscous products.

60 kg to 208 kg

### INOVADRUM OPEN HEAD

LIQUIDS VISCOUS SOLIDS

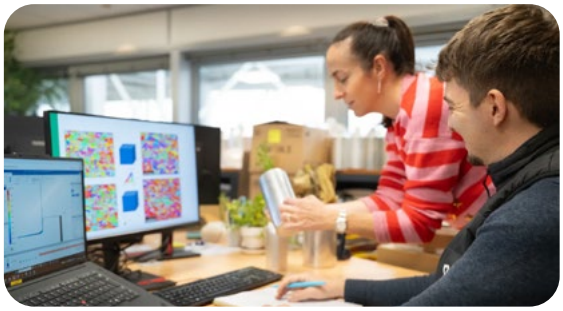
Reusable open head stainless steel drum, UN-approved, for processing, transport, and storage of liquid and solid products.

60 kg to 800 kg

# OUR **CUSTOMIZED** OPTIONS

## CUSTOM PRODUCTS

Your innovations sometimes impose specific requirements on your packaging. Tournaire works with you to design taylor-made solutions: dedicated capacities, customized closures, integrated pouring aids, and interior finishes and coatings tailored to your materials. From needs analysis to rollout, our teams support you at every stage of your project.



## COMPATIBLE ACCESSORIES

A range of accessories designed for the fragrance industry: nuts and a pre-set torque wrench to facilitate manual tightening, a pouring spout and a threaded tap adapter for precise pouring, and a perforated cap to facilitate connection and in-line integration. A customizable tear-off label and a security seal ensure the tamper-proof integrity of your precious formulations.

## CUSTOMIZATION

In the fragrance industry, packaging is a powerful differentiator. Tournaire offers a wide range of techniques: screen printing, pad printing, lacquering, sleeves, varnishing, and laser engraving, to customize aluminum bottles and stainless steel drums. Whether for small or large production runs, our teams will work with you to create unique, durable designs that reflect your brand's image.

## CONSULTING & SUPPORT

With over 190 years of expertise, Tournaire supports you every step of the way to help you get the most out of our solutions. Our laboratory works closely with you to conduct compatibility tests, accelerated aging tests, and qualification projects. Our dedicated regulatory monitoring team keeps you informed of evolving legislation. A long-lasting relationship, founded on trust, dedicated to driving innovation and enhancing the performance of your formulations.
