THE BENEFITS OF THE RANGE

TIGHTNESS

- One-piece seamless aluminum body, providing an effective barrier to UV, gases and moisture.
- Tightness reinforced by the addition of an LDPE plug.
- Mechanical resistance to pressure and temperature variations, including during air transport.

COMPATIBILITY

- Compatible with a wide range of products, including food products, thanks to the different internal coatings and finish options available.

CLEANLINESS

- The one-piece aluminum manufacturing process, combined with intensive washing, ensures a very high level of chemical, microbiological and particulate cleanliness.

REGULATORY

- Available in plain aluminum or with an internal coating (standard or BPA-NI), depending on requirements.
- The BPA-NI coating can be used for food contact, depending on the product and applicable local regulations.

SAFETY

- The sturdy aluminum body, ensures maximum safety during handling and transport, particularly in laboratory environments.

SUSTAINABILITY

- Made of 100% aluminum, recyclable without loss of the material's mechanical properties.
- Eco-design approach with the aim to reduce the environmental impact of your operations.

OUR CUSTOMIZATION OPTIONS

OPTIONS AND FINISHES

The bottle is available in plain aluminum, with a standard internal coating or a BPA-NI coating suitable for food contact.
The cap is available in black or white.

CUSTOMIZATION

Customization is available through several marking options: pad printing on caps (logos or specific markings), external lacquering, and screen printing on the bottle body.
