- Integrated PE conical insert in the cap.

Available cap colors:

### Uses

Suitable for the sampling and packaging of sensitive products, such as aromatic and cosmetic products.

Perfumery

Beauty & wellness

### Certification

100% recyclable.

# THE BENEFITS OF THE RANGE

## TIGHTNESS

- The PE conical insert, fitted in the standard GCMI/GPI 28/430 cap, ensures product integrity while preventing leakage and contamination.

## COMPATIBILITY

- Glass is compatible with most solvents and cosmetic products.
- Two types of caps are available in black bakelite or white phenolic urea, ensuring optimal compatibility with different products.

## CLEANLINESS

- A single neck finish across the entire range, designed to form a precise drop, facilitates accurate dosing, limits waste and ensures an optimal level of cleanliness.

## REGULATORY

- Type III amber soda-lime glass, UV-protective, compliant with USP standards (<10% light transmission), ensuring protection of light-sensitive contents and compliance with cosmetic standards for storage.

## SAFETY

- The neck, specifically designed for precise pouring, reduces the risk of accidents and ensures safer handling of liquids.

## SUSTAINABILITY

- 100% recyclable amber glass that can be reintroduced into the glass recycling stream.
- The standardized neck across the range enables simplified cap sourcing.

## OUR CUSTOM OPTIONS

### OPTIONS AND FINISHES

Black bakelite or white phenolic urea cap.

### CUSTOMIZATION

Custom options are available upon request.
